

February 2003

I first saw Border Magic at a home and garden show 3 years ago. I was fascinated with the product. The idea behind it is what i was looking for. NO maintenance, NO picking weeds, and NO movement like with bricks or stones. A finished product that looks great and NO maintenance. WOW.

Since it was installed the product has gone through 3 winters. No movement with the product. I had some concrete work done last summer, and the contractor thought there was a rod or wire mesh of some sort in the border. I told him there was nothing but the mixture that was put in buy Mr. Ritchie. Even the concrete truck drivers were fascinated at how it looked.

Ray Ritchie and his team go the extra mile to make the home owner and the product achieve a great look with style. I would recommend this product to anyone who would love to have a NO maintenance border with STYLE. It is a great product. If I was to move to another home, I would see if Ray could come and do another outstanding job.

Thanks for a beautiful job at our home.

Sincerely,  
Glenn and Robin Miller
