RE: David Posey and Border Magic Installation

All I can say is WOW! I had shopped around several years ago when only basic landscape curbing was available and I was so thrilled to see Border Magic's product and to meet David Posey at the Home & Garden show here in Memphis last year. I had David install Border Magic at my home last month and I can't tell you how incredibly pleased I am with the results. Not only is the curbing beautiful, but I also had flowerbeds that washed out each time it rained and thankfully that is no longer a problem.

David was extremely helpful in deciding on the shape and color of the border and he is truly an asset to the Border Magic team. The extra efforts and special touches he added to the process made the process almost effortless and the end result is exactly what I wished for. The compliments keep pouring in from my neighbors and it is great to see people stop and look when they drive by my house and ask me where to get it. I would highly recommend David and your product to anyone that is looking to make their home or business more attractive by using Border Magic.

Thanks again for your great product – I enjoy it more and more every day.

Sincerely,

Julie Vaden
